

Configuring AppClarity

Summary

How to configure AppClarity.

In this section...

[Configuring connectors](#)

The included page could not be found.

- [AppClarity v5.2 connector](#)

This preview feature exports entitlements from AppClarity 5.2 into a TSV file, which can then be reviewed and imported into AppClarity 6.1.

- [Entitlement .tsv connector](#)

Uploads entitlements from a folder containing tab separated value (TSV) file(s).

[Managing repositories](#)

Configure repositories for use with AppClarity.
