

# Using consumer applications

## Summary

List of applications that are available for the Tachyon Platform, their URL, and links to the latest versions of their documentation.

All consumer applications can be accessed from the Tachyon Portal using the following URL, and then clicking the application icon.

```
https://<tachyon DNS Name FQDN>/Tachyon
```

where <tachyon DNS Name FQDN> is the one set up during the preparation phase, as described under the heading [Preparation: DNS Names](#).

You can access a specific application by using a full application URL.

## Included applications

The following are applications built-into the Platform:

<a href="#">Inventory 5.2</a>	<a href="https://&lt;tachyon DNS Name FQDN&gt;/Tachyon/App/#/inventory/">https://&lt;tachyon DNS Name FQDN&gt;/Tachyon/App/#/inventory/</a>
