[Process log page](#)

The **Process log** page lets you view the progress of queued actions and cancel actions that are pending.

The screenshot shows a web browser window displaying the 'Process log' page. The browser address bar shows the URL: `https://tachyon.acme.local/Tachyon/App/#/platform/monitoring/process-log`. The page has a dark sidebar on the left with a 'Settings' menu. The main content area is titled 'Process log' and contains a table of actions. The table has columns for 'Action type', 'Action name', 'Repository', 'Started on', 'Processed on', and 'Status'. The actions listed include 'Generate Report' for various consolidation tasks and 'Sync Data' for file uploads. Most actions show a green checkmark in the status column, indicating they are completed. One action, 'Management Group Evaluation', shows a red circle with a slash, indicating it is pending or failed. The table is paginated, showing 1-24 of 39 items, with the current page being 24.

<input type="checkbox"/>	Action type	Action name	Repository	Started on	Processed on	Status
