

The In-Place Upgrade user experience

The user experience

There are seven phases for this deployment type if you are running the upgrade from the office:

1. [Choosing the deployment](#)
2. [Telling us where they are](#)
3. [Showing them the list of applications they keep or lose in the deployment](#)
4. [Requesting additional storage](#)
5. [Displaying a summary of their actions](#)
6. [Running background checks](#)
7. [The outcome of the deployment](#)

If you are remote, there is an additional step where we request your [connection details](#), just after requesting additional storage.

The Location screen

Where the deployment is initiated from

1E Windows Servicing Assistant - Upgrade to Windows 1703

Start **2 Location** 3 Applications 4 USB Media 5 Summary 6 Readiness 7 Complete

Where are you?

I am in the office

I am out of the office
(e.g. at home)

Telling us your location type will allow us to configure the deployment process appropriately, ensuring it completes successfully in the shortest possible time. A remote/home location is considered one in which no other work PCs are present.

The USB Media screen

Requesting additional storage

1E Windows Servicing Assistant - Upgrade to Windows 1703

Start Location Applications **USB Media** Summary Readiness Complete

We'll need some more space...

We need to use USB media as there is insufficient storage locally or on the network.

The USB Memory stick will need at least 10 GB of free space available.

The Summary screen

A quick summary

The screenshot shows a window titled "1E Windows Servicing Assistant - Upgrade to Windows 1703". At the top, a progress bar has seven steps: Start, Location, Applications, USB Media, Summary (highlighted with a blue circle and '5'), Readiness (6), and Complete (7). Below the progress bar, the text reads "Okay, here is your summary:". On the left, under "Deployment", it says "Upgrade to Windows 1703". Under "Location", it says "Office". On the right, a scrollable list of applications is shown: Anti-Virus Software, 1E Nomad, 1E Agents, Thunderbird 38.5, FileZilla Client 3.21, and Acrobat Reader DC. At the bottom left is a "Cancel" button, and at the bottom right are "Back" and "Next" buttons. A link "Hide Applications" is located below the location information.

The Readiness screen

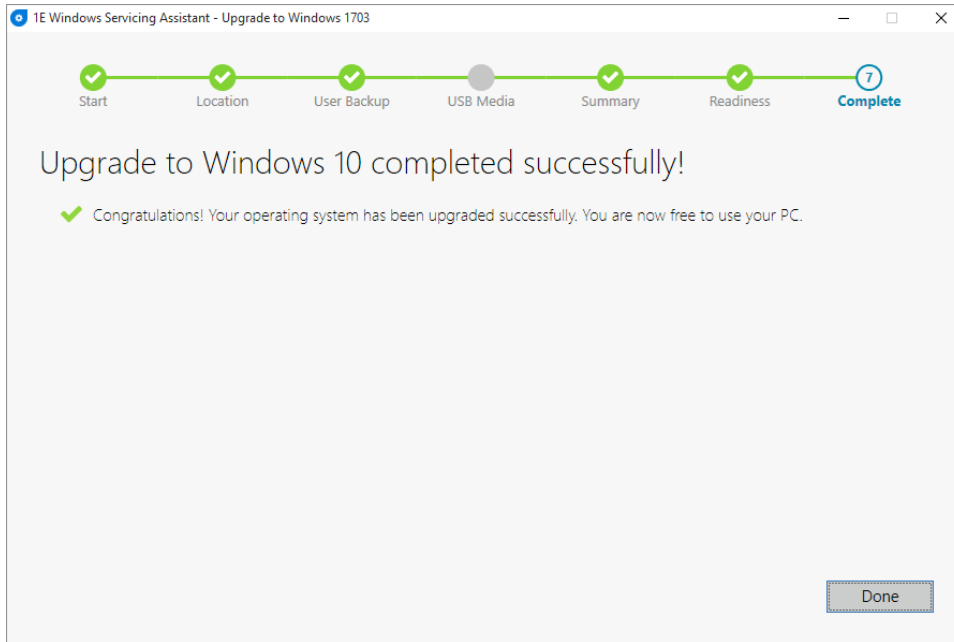

Making sure you are good to go

The screenshot shows a window titled "1E Windows Servicing Assistant - Upgrade to Windows 1703". The progress bar at the top has seven steps: Start, Location, Applications, USB Media, Summary, Readiness (highlighted with a blue circle and '6'), and Complete (7). Below the progress bar, the text reads "Getting things ready". A progress bar below this text is labeled "System Check in progress...". To the right of the progress bar is a "Details..." link. Below this, the text asks "This may take some time. What would you like to do?". There are two radio button options: "I'm done. Go ahead and Upgrade to Windows 1703 as soon as everything is ready" (which is selected) and "I want to continue working. Let me know when everything is ready". At the bottom left is a "Cancel" button, and at the bottom right are "Back" and "Next" buttons.

The Complete screen

The results of the deployment

The screenshot shows a window titled "1E Windows Servicing Assistant - Upgrade to Windows 1703". At the top, a progress bar consists of seven steps: Start, Location, User Backup, USB Media, Summary, Readiness, and Complete. The first six steps are marked with green checkmarks, while the "Complete" step is marked with a blue circle containing the number 7. Below the progress bar, the text reads "Upgrade to Windows 10 completed successfully!" followed by a green checkmark and the message "Congratulations! Your operating system has been upgraded successfully. You are now free to use your PC." A "Done" button is located in the bottom right corner of the window.
